Foreword

This manual contains the parts breakdown and identification of the various components and structures that make up your mower implement.

The illustrations, drawings, and diagrams in this manual are based on the latest information available at the time of publication. Your machine may have product improvements and features not yet contained in this parts manual.

Diamond Mowers Inc. reserves the right to make changes at any time without notice or obligation.

DRIVE ASSEMBLIES

HOW TO DETERMINE YOUR MOTOR PART NUMBER

Note: The following parts pages in the **DRIVE ASSEMBLIES** section have multiple motor options; to identify which motor you have, follow the instructions below: you will have to first determine your vehicles hydraulic oil GPM requirements (i.e. 16-41gpm).

- ▷ Determine what your hydraulic oil flow requirements are for your vehicle in gallons per minute (GPM).
- ▷ Locate the **Drive Assemblies** page in the table of contents in the front of this manual that has a GPM range consistent with your vehicle's GPM requirements, and go to that page. Locate your motor part number.
- ▷ If multiple motor options and part numbers are available on your parts page, measure the width of the gear set portion of your motor to determine which part number is correct for your motor. Measure the gear set as shown in the illustration below *(see Figure 1)*.

Motor - (Figure 1)

DRIVE ASSEMBLY - 60", 32-45 GPM
