**HIGH TORQUE
BELT DRIVE**

Class-leading torque to obliterate anything in its path, recovers twice as fast as other disc mulchers, and its efficient design promotes lower hydraulic temperatures for maximum uptime and carrier life.

- Two-speed hydraulic motor technology coupled with a belt drive for the most demanding jobs

- Increased disc speed during reprocessing and back-dragging delivers constant production
- Optimized motor size delivers greater efficiency and takes full advantage of the mulcher's potential
